

Who goes there?

- Do your part to make sure facility security measures are followed.
- Access to workroom and restricted areas is limited to authorized on-duty postal employees and authorized contractors. Anybody else must have legitimate business on the floor and be escorted.
- Prevent unauthorized individuals from entering restricted areas. This includes off-duty craft employees. Question anyone who doesn't have an ID or escort.

Keeping employees, customers, and the mail safe and secure is a USPS priority.

And that's smart business.
