

Look Up and Take Notice

- The Postal Service is proud to fly the U.S. flag at all postal facilities.
- Regularly check to make sure the U.S. flag is properly displayed and in good shape at your postal unit.
- Customers are quick to point out when flags are tattered or not flying properly.

Proper care and display of the U.S. flag reflects positively on an office — and the entire Postal Service.

And that's smart business.

Refer to Section 472 of the Administrative Support Manual for information regarding the proper display of the U.S. flag:
