

## **Special Delivery: Delivering Trust**

Public Service is a public trust.

Customers should have complete confidence in the integrity of the Postal Service. They rely on us to safely and timely deliver birthday gifts, paychecks, gift cards, prescription medication, and credit and debit cards.

Mail should be safely and securely handled – never stolen. Appropriately handle the mail.

Maintaining the integrity and trustworthiness of the Postal Service keeps customers coming back to us time and time again.

That's just smart business.
