

Form 300A

Check the stats.

OSHA requires employers with 10 or more employees to post a copy of OSHA's Form 300A, which summarizes job-related injuries and illnesses recorded during the previous year. The summary must be displayed in a common area where notices to employees are usually posted. This happens each year between Feb. 1 and April 30. Employers, workers and OSHA use this information to evaluate the safety of a workplace, identify unsafe practices and conditions, and implement workplace policies and procedures to reduce and eliminate hazards.

OSHA recording resources and requirements are available on the MyHR page on the Blue intranet and from OSHA at <https://www.osha.gov/recordkeeping/>.

And that's smart safety!
